

IsoTek Win Hi-Fi Choice Top Award For the 3rd Consecutive Year

IsoTek's amazing GII Mini Sub wins best in class for the third year running in Hi-Fi Choice Magazine. The GII Mini Sub won **'Best Mains Conditioner'**, last Friday at the Hi-Fi Choice Awards ceremony. The event took place in London's famous Park Lane, with Tim Bown, Hi-Fi Choice's Editor, personally presenting the awards.

Hi-Fi Choice commented, *"The quality of the mains electricity that you feed your Hi-Fi can have a profound effect on its sound, as IsoTek knows. The company specialises in products designed to optimise mains quality, and this year it has introduced some excellent new conditioners, including the high-end Nova and Titan. But for our Gold Award we've returned to favourite - the GII Mini Sub."*

Always setting new standards
